Some quick tips for making an Intoduction Topic.

- Put your name, nickname, rig, or other interesting things you like in there.
- Keep it short and powerfull.
- Make yourself a sig or avatar to show your identity and make you more recognizable to other forum members.
- Don't make standard questions like "I like crysis do you do also ^^ ?".
- In the introduction topics are the same rules in place as they are on the other boad sections

Have fun on this great crysis community.
The crysiseu Team.
