:)

Edit: And their news reads

Tonight (October 25th 23:00 UTC/GMT) the demo has been released through EA Link (former EA Downloader) for users that have preordered Crysis on EA Store
There is a 24 Hour Exclusive on the Single Player Demo for those users.

When the demo will be public? We don't know. There isn't any official statement about it.
If the 24h hour exclusive is correct, it will be public on October 26th 23:00 UTC/GMT)
We have to wait...
