
64-bit version of Windows Vista

Posted by Mr.Crowley - 2008/03/27 10:56

How do I install a 64-bit version of Windows Vista on computer that is running a 32-bit version of Windows Vista?
:unsure: Btw I did not get a cd or anything.

You can't you gotta buy it or get a cracked version of 64 bit! if you have bought a DVD with Vista in and it supports only 32 bit, then there is your answer ;)
